

AUDITORS' REPORT

To the Shareholders of
Electrovaya Inc.

We have audited the consolidated balance sheets of **Electrovaya Inc.** as at September 30, 2010 and 2009 and the consolidated statements of operations and deficit, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2010 and 2009 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

Electrovaya Inc. (the Company or “Electrovaya”), incorporated in 1996 under the Business Corporations Act (Ontario), develops, manufactures and markets portable power technology products and services using its patented lithium ion SuperPolymer® technology.

1. Significant accounting policies

(a) Basis of presentation

The Company prepares its financial statements in accordance with Canadian generally accepted accounting principles. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, including 1408871 Ontario Inc., Electrovaya Corp., Electrovaya Company, Electrovaya USA Inc. and Electrovaya Global SRL. All inter-company balances and transactions have been eliminated upon consolidation.

Comprehensive Income

Comprehensive income is composed of the Company’s net earnings and other comprehensive income. It includes all changes in equity during a period except those resulting from investments by owners and distributions to owners.

Financial Instruments – Disclosures

The recommendations in Section 3862, Financial Instruments – Disclosures, increases the disclosures currently required that will enable users to evaluate the significance of financial instruments for an entity’s financial position and performance, including disclosures about fair value. In addition, disclosure is required of qualitative and quantitative information about exposure to risks arising from financial instruments, including specified minimum disclosures about liquidity risk and market risk. The quantitative disclosures must also include a sensitivity analysis for each type of market risk to which an entity is exposed, showing how net income and other comprehensive income would have been affected by reasonable possible changes in the relevant risk variable. The Company has included disclosures recommended by the new Handbook section in Note 12 to these financial statements.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

Financial instruments – Presentation

The Company adopted the recommendations of the Canadian Institute of Chartered Accountants' Handbook Section 3863, Financial Instruments – Presentation.

The following definitions are used in the presentation and disclosures regarding Financial Instruments in which the Company engages as part of their normal operations.

Fair Value

The fair value of cash and cash equivalents, accounts receivable, other receivables, investment tax credits recoverable, accounts payable and accrued liabilities, deferred revenue and deferred government grant approximate their carrying values due to the relatively short term maturities of these instruments.

Sensitivity analysis

The Company has designated its cash and cash equivalents as held-to-maturity; which are measured at cost using the effective interest method. Financial instruments included in accounts receivable and other receivables are classified as accounts receivable, which are measured at amortized cost. Accounts payable and accrued liabilities, deferred revenue and deferred government grants are classified as other financial liabilities, which are measured at amortized cost. As at September 30, 2010, the carrying and fair value amounts of the Company's financial instruments are not materially different.

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a twelve month period. The Company has no short-term investments as at September 30, 2010 exceeding 90 days. Therefore, a change in interest rates will not have any significant impact on the Company relating to the holding of these investments.

The Company does have significant, but not material, reserves of foreign currency that would give rise to exposure to foreign exchange risk. Therefore a percentage change in foreign exchange rates may have a significant, but not material, impact on the Company.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

Capital disclosures

The Company adopted CICA Handbook Section 1535 Capital Disclosures. Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance. The Company has included disclosures recommended by this Handbook section to these financial statements as described more fully below.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the development, manufacture and marketing of its products. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The products which the Company is currently developing and maintaining are in the early stages; as such the Company is dependent on external financing and government financing to fund its activities. In order to carry out the planned development, improve production capacity and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

The Company will continue to assess new products and seek to acquire an interest in additional products if it feels there is sufficient economic potential and if it has adequate financial resources to do so.

(b) Cash and cash equivalents

Cash and cash equivalents include temporary investments in marketable securities which are readily convertible into cash and which have an original term to maturity of 90 days or less.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

(c) Inventories

Effective October 1, 2008, the Company adopted the Canadian Institute of Chartered Accountants Handbook Section 3031, *Inventory*. This new inventory standard requires changes for accounting of inventory including the requirement to allocate overhead costs based on normal production levels and changes to the definition of net realizable value.

This inventory standard clarifies the definition of 'cost' to include all costs of purchase, costs of conversion and other costs incurred to bringing the inventories to their present location and condition. As a result, companies are required to systematically allocate fixed and variable production overheads that are incurred in converting materials into finished goods. The allocation of fixed production overheads is based on normal production capacity of the production facilities. In addition, the standard requires companies to assess the recoverability of inventory costs in comparison to net realizable value. Declines in replacement cost below carrying values for raw materials inventories do not require write downs if the finished goods in which they will be incorporated are expected to be sold at or above cost.

(d) Capital assets

Capital assets are recorded at cost less related investment tax credits and accumulated amortization. Amortization is provided on a straight-line basis over the estimated useful lives of the assets at the number of years indicated below:

	Years
Building	25
Building improvements	15
Production equipment	6
Workshop equipment	5
Patents and technology	5
Office furniture and equipment	5
Vehicles	5

(e) Goodwill and Intangible Assets

In February 2008, the Canadian Institute of Chartered Accountants issued Handbook Section 3064, Goodwill and intangible assets. The new section establishes standards for the recognition, measurement, presentation and disclosure of goodwill subsequent to its initial recognition and of intangible assets by profit oriented enterprises. This new standard which is applicable to fiscal years beginning on or after October 1, 2008, was implemented on October 1, 2008.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

(f) Research and development costs

Research costs, net of related investment tax credits, are expensed in the period in which they are incurred.

Development costs, net of related investment tax credits, are expensed in the period incurred unless such costs meet the criteria under Canadian generally accepted accounting principles for deferral and amortization. To date, the Company has not deferred any development costs.

Certain costs related to the Company's research and development efforts related to fast-rate batteries and electric vehicles are being funded by repayable grants from Technology Partnerships Canada ("TPC") and Sustainable Development Technology Corp ("SDTC") (see Note 14).

(g) Revenue recognition

Revenue from product sales is recognized upon shipment. Estimated returns and allowances and sales rebates are recorded as a reduction of revenue at the time of revenue recognition. In addition, the Company provides for the estimated cost of standard product warranties at the time of revenue recognition. The Company primarily uses a binding purchase order as evidence of its sales arrangements, and with respect to its service arrangements uses contractual agreements. The Company considers delivery to occur upon shipment, provided risks and rewards of ownership, including transfer of title have passed to the customer. At the point of sale, the Company assesses whether collection is reasonably assured. If the Company determines that collection is not reasonably assured, the Company defers recognition of the revenue until collection becomes reasonably assured, which is generally upon receipt of cash. Where an estimate of the potential sales returns cannot be made, the recognition of revenue does not occur until the distributor has sold the product. Revenue from large format batteries provided to third parties under contracts is recognized as services are performed and as each milestone in the contract is achieved and accepted by the customer. Revenue from custom machine building is recognized based on the percentage of completion method of accounting for contracts. Under such contracts, revenue is recognized based on the ratio of total costs incurred to date to overall estimated costs. Provisions for estimated losses on contracts are recognized when identified.

Revenue from licensing is recognized as amounts are earned under the terms of applicable agreements, provided no significant Company obligations exist and collection of the resulting receivable is reasonably assured.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

(h) Stock based compensation

The Company applies the fair value method of accounting for employee stock options. Under this method, compensation cost is measured at fair value at the date of grant and expensed over the award's vesting period. The offset to the expense is recorded in contributed surplus.

(i) Warranty costs

Warranty costs are provided for as revenues are earned.

(j) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the years. Actual results may differ from the estimates. Sales returns are estimated at the time of delivery based on past experience and customer specific factors. Bad debts are determined based on the ageing of accounts receivable where such amounts are not insured and considered uncollectible. Warranty accruals are based on the actual warranty experience rate for the past year and sales during the most recent warranty period.

The Company operates in a competitive market subject to fast-paced technological changes. The Company has estimated the provisions for sales returns, warranty costs and obsolete inventory based on historical patterns, communication with its distributors, industry trends and existing competitive pressures. Significant changes in technology or competitors' products could result in a material change in the rate of sales returns.

(k) Income taxes

The Company uses the asset and liability method of accounting for income taxes. Future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry-forwards. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in the Statement of Operations in the period that includes

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

the date of enactment or substantive enactment. A valuation allowance is recorded against any future income tax asset if it is more likely than not that the asset will be realized.

(l) Foreign currency translation

Monetary assets and liabilities of the Company which are denominated in foreign currencies are translated into Canadian dollars (which is considered to be the measurement currency) at the exchange rates prevailing at the balance sheet date, and transactions denominated in foreign currencies which are included in operations are translated at the average rates for the year. Non-monetary assets and liabilities are translated at the exchange rate in effect at the transaction date. Exchange gains and losses resulting from the translation of these amounts are reflected in the consolidated statement of operations in the year in which they occur.

As the Company's reporting currency is the U.S. dollar, the Company translates assets and liabilities denominated in Canadian dollars into U.S. dollars at the exchange rate prevailing at the balance sheet date, and the results of operations at the average rate for the year. Cumulative net translation adjustments are included as a separate component of other comprehensive income.

(m) Earnings per share

Basic earnings per share is calculated using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of common and potential common shares outstanding during the year, if dilutive.

(n) Impairment of long-lived assets

The Company reviews capital assets subject to amortization for impairment on an annual basis or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized when the carrying amount of an asset that is held and used exceeds the projected undiscounted future net cash flows expected from its use and disposal, and is measured as the amount by which the carrying amount of the asset exceeds its fair value, which is measured by discounted cash flows when quoted market prices are not available. Management determined that there is no impairment charge for the year ended September 30, 2010.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

1. Significant accounting policies (continued)

(o) Going concern

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assume the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. If the "going concern" assumption is not appropriate, then material adjustments may be necessary in the carrying amounts and/or classifications of assets and liabilities in these financial statements.

2. Future accounting changes

International Financial Reporting Standards ("IFRS")

In February 2008, the Canadian Accounting Standards Board confirmed that the use of International Financial Reporting Standards ("IFRS") will be required for publicly accountable profit-oriented enterprises. IFRS will replace Canada's current generally accepted accounting principles. Companies will be required to provide comparative IFRS information for the previous fiscal year. The Company is required to implement IFRS for the fiscal year 2012 and the Company has commenced the process to transition from current Canadian GAAP to IFRS.

Transition Process:

The transition process consists of three primary phases: scoping and diagnostic phase, impact analysis, evaluation and design phase and implementation and review phase.

Scoping and diagnostic phase – A preliminary diagnostic review to determine the financial reporting differences under IFRS compared to Canadian GAAP are underway. The full impact on future financial reporting cannot be fully determined or estimated at this time, however, the Company is actively reviewing the impact of the first-time adoption of IFRS and those areas that may result in differences. The Company anticipates completing this assessment during the first quarter of fiscal 2011.

Analysis, quantification and evaluation phase – In this phase, each area identified from the scoping and diagnostic phase will be addressed, including specification of changes to existing accounting policies, information systems and business processes, together with an analysis of policy alternatives allowed under IFRS and development of draft IFRS financial statement content.

Implementation and review phase – This phase includes execution of any changes to information systems and business processes and completing formal authorization processes to approve recommended accounting policy changes. It will also include the collection of financial information necessary to compile IFRS compliant financial statements and audit committee approval of IFRS financial statements.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

5. Share capital (continued)

The following table summarizes the assumptions used with the Black-Scholes valuation model for the determination of the stock-based compensation costs for the stock options granted during the year ended September 30, 2009:

Grant date	February 18, 2009	August 13, 2009	Total
No. of options	542,000	458,000	1,000,000
Exercise price	\$ 0.22	\$ 0.89	
Average Expected life in years	10	10	
Volatility	102%	102%	
Risk-free weighted interest rate	2.85%	2.85%	
Dividend yield	-	-	
Fair-value of options granted	\$118	\$ 390	

Stock based compensation expense related to the portion of the outstanding stock Option that vested during the year ended September 30, 2010 was \$601 (2009-\$569). The weighted average grant date fair value of stock options granted during the year was \$1.66 (2009 - \$0.51)

6. Related party transactions

- a) In August 2005, the Company purchased all of the issued and outstanding shares of 1020204 Ontario Limited ("102") from its two principal shareholders at the time, Dr. Sankar Das Gupta, who is a director and officer of the Company and Dr. James Jacobs who was an officer of the Company. Electrovaya Inc. then transferred all of its shares in Electrovaya Corp. to 102 in exchange for shares of 102. 102 and Electrovaya Corp. then completed a statutory vertical amalgamation and continued as Electrovaya Corp. (the "amalgamation transaction").

The amalgamation transaction was accounted for based on CICA Handbook Section 3840, Related Party Transactions at the exchange amounts of the assets and liabilities transferred as there was a substantive change in the ultimate unrelated parties' ownership interests in the subsidiaries. In addition, the Company had obtained independent evidence on the exchange amounts involved in the amalgamation transaction. An independent committee of the Board was constituted to review the amalgamation transaction.

Upon amalgamation, the Company received \$509 of cash and assumed a liability of \$77 relating to interest payable on an income taxes liability of 102. The offset to the \$432 of net assets assumed had been recorded as a credit to income tax recovery in the statement of operations for the fiscal year ended September 30, 2005. In addition, as at September 30, 2005, Electrovaya Corp carried back income tax losses of \$4,787, eliminating a \$1,148 income tax liability of 102. This transaction had no impact on the statement of operations as a full valuation allowance had been recorded against the income tax losses.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

6. Related party transactions (continued)

In August, 2007, 102 received a Notice of Reassessment for a tax liability of approximately \$498 (including accumulated interest) relating to the sale of property by 102 prior to the amalgamation with Electrovaya Corp. A final collection notice was received in December, 2007 and a lien was placed by the Ministry of Revenue on Electrovaya Corp's assets in January 2008 as security for the outstanding amount. Pursuant to the terms of the share purchase agreement, the former shareholders of 102 were required to indemnify Electrovaya in respect of the full amount, including legal and administrative expenses of any resulting tax liability. A settlement agreement was reached between the former shareholders of 102 and the Company and the Board also approved a one-time payment of \$100 by the Company to the Ministry of Finance to finalize the matter. Pursuant to the settlement agreement, the tax liability will be repaid to the former shareholders on a prorata basis in the future if the Company earns taxable income. During the quarter ended March 31, 2009, all remaining outstanding tax liabilities were paid and the lien placed on Electrovaya Corp's assets was removed.

- b) During the year ended September 30, 2010, the Company paid \$211 (2009- \$187) to a director of a wholly owned subsidiary company for services rendered to the Company in his capacity as an executive officer. During the year ended September 30, 2010, the Company paid \$239 (2009 - \$245) to the Chief Executive Officer, who is also a controlling shareholder of the Company. Since the payments to the CEO and director of the wholly owned subsidiary are fixed and made in Canadian dollars while the Company reports in US dollars, the difference is attributable to the change in exchange rates.
- c) During the year ended September 30, 2006, the Company was served with a Statement of Claim for \$1,100 by an executive officer related to an automobile accident involving one of the Company-owned automobiles. The lawsuit has not yet been settled, but the Company is fully insured for the amount of the claim.

7. Commitments

- (a) The Company's future minimum lease payments under operating leases for the years ending September 30, are as follows:

2011	141
2012	142
2013	71
	<hr/>
	\$ 354

- (b) In May, 2006, the Company entered into a fixed price agreement for \$1,000 with the New York State Energy Research and Development Authority ("NYSERDA"). Under the agreement, the Company will expand its operations in New York State to develop lawn and turf off-road equipment and establish sales and service capabilities for its Scribbler Tablet products. The Company has entered into a five year lease for approximately 600 square

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

7. Commitments (continued)

feet of office space and manufacturing space of 6,900 square feet commencing April 1, 2008 at a building constructed at the Saratoga Technology + Energy Park ("STEP").

8. Loss per share

The basic and diluted loss per share has been calculated using the weighted average number of common shares outstanding during the year, which are as follows:

September 30, 2010	70,518,178
September 30, 2009	69,776,324

Common share purchase options or other potential dilutive common share issuances were not considered in the calculation of diluted loss per share for each of the years presented since their effect would be anti-dilutive.

9. Income taxes

The income tax recovery differs from the amount computed by applying the Canadian statutory income tax rate of 31.8% (2009 – 33.1%) to the loss before income taxes as a result of the following:

	Years ended September 30,	
	2010	2009
Loss before income taxes	\$ (2,351)	\$ (577)
Expected Recovery of income taxes based on statutory rates	(746)	(191)
Reduction in income tax recovery resulting from:		
Lower rate on manufacturing profits	34	12
Non-taxable portion of capital gain	(32)	(38)
Other permanent differences	66	199
Change in valuation allowance	(77)	9
Change in enacted tax rates	755	9
Income tax recovery	\$ -	\$ -

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

9. Income taxes (continued)

The income tax effects of temporary differences that give rise to significant portions of the future tax assets and future tax liabilities are as follows:

	Years ended September 30,	
	2010	2009
Future tax assets		
Non-capital losses carried forward	\$ 12,537	\$ 13,225
Capital assets	(180)	(218)
Unclaimed research and development expenses	4,785	4,036
Other deductible differences	348	379
	17,490	17,422
Less valuation allowance	(17,490)	(17,422)
Net future tax assets	\$ -	\$ -

In assessing the realizability of future tax assets, management considers whether it is more likely than not that some portion or all of the future tax assets will be realized. The ultimate realization of future tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers projected future taxable income, uncertainties related to the industry in which the Company operates and tax planning strategies in making this assessment. To the extent that management believes that the realization of future income tax assets does not meet the more likely than not realization criterion, a valuation allowance is recorded against the future tax assets.

In addition to the above temporary differences, the Company has unrecorded non-refundable investment tax credits amounting to approximately \$4,093 (2009 – \$4,534) which begin to expire in 2014. During the year, the Company recognized \$191 (2009-\$170) of refundable investment tax credits.

As at September 30, 2010, the expiration dates of the Company's federal non-capital income tax losses carried forward are as follows:

2014	\$ 4,659
2015	2,184
2022	978
2023	106
2024	337
2025	38
2026	21,452
2027	5,147
2028	5,166
2029	223
2030	1,133
	\$ 41,423

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

Years ended September 30, 2010 and 2009

10. Change in non-cash operating working capital

	Years ended September 30,	
	2010	2009
Accounts receivable	\$ (882)	\$ 98
Investment tax credits recoverable	(31)	3
Other receivables	(1)	(21)
Inventories	45	(76)
Prepaid expenses and other	(173)	39
Accounts payable and accrued liabilities	326	(158)
Income tax payable	-	(238)
Deferred revenue	(100)	(1,260)
Deferred government grant	(796)	2400
	\$ (1,612)	\$ 787

11. Segmented information

The Company has reviewed its operations and determined that it operates in one business segment and has only one reporting unit. The Company develops, manufactures and markets portable power technology products using its patented lithium ion SuperPolymer® technology.

Revenues from major business activities for the year ended September 30, 2010 were as follows

	September 30,	
	2010	2009
Large Format Batteries, licensing	\$ 4,353	\$ 3,022
Consumer electronics	497	546
Other	175	214
	\$ 5,025	\$ 3,782

Revenues attributed to regions based on location of customer were as follows:

	September 30,	
	2010	2009
Canada	\$ 623	\$ 289
United States	4,286	1,493
Others	116	2,000
	\$ 5,025	\$ 3,782

One customer represented 10% or more of the Company's revenues representing 62% of revenue from large format batteries.

As at September 30, 2010, all the Company's capital assets were located in Canada.

12. Management of financial risk

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The main objectives of the Company's risk management processes are to ensure that the risks are properly identified and that the capital base is adequate in relation to those risks. The principal risks to which the Company is exposed are described below.

Capital risk

The Company manages its capital to ensure that there are adequate capital resources for the Company to maintain and develop its products. The capital structure of the Company consists of shareholders' equity and depends on the underlying profitability of the Company's operations.

Credit risk

Credit risk is the risk that a client will be unable to pay any amounts owed to the Company.

Management's assessment of the Company's risk is low as it is primarily attributable to money market funds held in Canadian banks, trade accounts receivables, Goods and Service Tax due from the Federal Government of Canada which is included in amounts receivable, and investment tax credits recoverable. The Company manages its credit risk by establishing procedures to establish credit limits and approval policies.

Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. The Company may seek additional financing through debt or equity offerings, but there can be no assurance that such financing will be available on terms acceptable to the Company or at all. Any equity offering will result in dilution to the ownership interest of the Company's shareholders and may result in dilution to the value of such interests. The Company intends to fulfill its obligations.

Market risk

Market risk incorporates a range of risks. Movement in risk factors, such as market price risk and currency risk, affect the fair value of financial assets and liabilities. The Company is exposed to these risks as the ability of the Company to develop or market its products and the future profitability of the Company is related to the market price of its primary competitors for similar products.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

12. Management of financial risk (continued)

Interest rate risk

The Company has cash balances and has no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions.

Foreign currency risk

The Company's functional currency is the United States dollar and a majority of its revenue is derived from that source. The major purchases are transacted in Canadian dollars as the Company operations are located primarily in Canada. Therefore, management believes the foreign exchange risk derived from any currency conversions may have a material effect on the results of its operations.

Price risk

The Company is exposed to price risk with respect to the price of its products as the Company has a few key competitors.

13. Investment in shares

Pursuant to the licensing agreement to build a battery plant in Norway, the Company purchased 850 shares, or approximately 6.4% of the shares of Miljobil Grenland AS, an Electric Vehicle company located in Norway. The investment was completed on December 8, 2008. During the quarter ended March 31, 2009, a Plan of Merger was presented whereby Miljobil Grenland AS would merge with Miljo Innovasjon AS, the battery plant company, and carry on business as Miljo Innovasjon AS. Such merger has since been completed, with the merged Company carrying on business as Miljobil Grenland.

As at March 31, 2010, the financial statements of Miljobil Grenland contained a going concern note as it was funded through loans from a major shareholder and had a negative equity position. Miljobil recently appointed a new Board of Directors and is exploring different sources of capital to fund its operations and also reviewing its business plan for opportunities to increase profitability.

14. Government Assistance

(a) Investment Tax Credits

The Company receives indirect financial assistance from the government by way of the investment tax credit program. This program provides assistance, by way of direct

ELECTROVAYA INC.

14. Government Assistance (continued)

payments and reductions in corporate income taxes, for specially defined qualifying expenditures. Investment tax credits are credited against the related research and development expenses, or capital assets.

(b) TPC grant

The Company has been approved for funding under the TPC initiative of Industry Canada. The funding is to support the Company's research and development efforts in fast rate batteries and electric vehicles. The Company expects to receive contributions of up to 29.7% of the specified costs of the development project, to a maximum amount of Cdn \$9,870 (\$9,432). Under the terms of the amended agreement, the Company is forecasting that an amount up to a maximum of \$5,608 is to be repaid by royalties, commencing in 2009 through to 2015, with payment to be deferred or reduced if certain revenue thresholds are not achieved. These revenue thresholds were not achieved during the year ended September 30, 2010.

Cumulative claims of \$5,942 were received by the Company as at September 30, 2008 from the TPC program and recognized after approval and payment of each claim. During fiscal 2009, the Company received contributions totaling \$2,870 (2008-\$619) from the TPC program. The program expired on March 31, 2009. Reimbursements for Claims for the quarter ending March 31, 2009 for \$620 (2008-\$619) were received during the quarter ended December 31, 2009. All monies owing under the TPC grant have now been received.

(c) SDTC grant

In July 2005, the Company became eligible for a Cdn \$1,700 grant from SDTC towards a Cdn \$5,100 project related to the development and demonstration of Electrovaya's Lithium Ion SuperPolymer® Battery for application in zero-emission commercial fleet vehicles. The amount is receivable in scheduled instalments as provided in the contribution agreement between SDTC and the Company and will be received upon the achievement of various project milestones. Under the terms of the amended agreement, SDTC shall pay the lesser of 33% of the eligible project costs or CDN \$ 1,859, the contribution shall not exceed 50% of the eligible project costs and the Company or consortium members, or both, shall provide at least 25% of the project costs in cash, in-kind goods or services or a combination of both. SDTC shall not have any obligation to pay the contribution unless the Company has obtained a commitment and has the financial capacity to finance all the costs related to the entire project. The project was completed in July 2010.

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

14. Government Assistance (continued)

No cash contribution was received by the Company during the year ended September 30, 2010. As of September 30, 2010, cumulative claims of \$1,113 have been received from SDTC. Further claims for \$ 426 were submitted for the year ended September 30, 2010.

(d) Ministry of Economic Development and Trade “Next Generation of Jobs Fund” Conditional Grant

On May 5, 2009, the Province of Ontario, as represented by the Minister of Economic Development, signed a Conditional Grant Agreement with Electrovaya Corp. awarding Cdn \$ 16.7 million as a grant. The grant is for pre-commercialization activities over a period of five years ending on December 31, 2013. The grant is 15% of the targeted project cost of Cdn \$111.49 million and is subject to certain targets related to new job creation and investment, which if not achieved, could result in only a portion of the grant being received, or a potential claw-back of funds received by the end of the five year period. The Company continues to review its requirements for additional capital resources and no commitments exist at the present time. In addition to discussions with various Government agencies concerning the potential funding of certain research and development and pre-commercialization activities, the Company is, on a regular basis investigating potential funding from other public and private sources.

Electrovaya received an advance of \$ 2.9 million (Cdn \$3.3 million) on June 5, 2009 and recorded this as deferred revenue. During the year ended September 30, 2010 \$0.9 million and cumulative of \$1.6 million of activities considered to be eligible costs and therefore reimbursable under the grant were recorded as a reduction of expenses.

15. Contributed surplus

Contributed surplus arises from the recognition of estimated fair value of stock options as follows:

	September 30,	
	2010	2009
Balance – beginning of year	\$ 1,312	\$ 894
Stock-based compensation expense	601	569
Exercise of options	(371)	(151)
Balance – end of year	\$ 1,542	\$ 1,312

ELECTROVAYA INC.

Notes to Consolidated Financial Statements (continued)

(Expressed in Thousands of U.S. dollars, except per share amounts and otherwise stated.)

Years ended September 30, 2010 and 2009

16. Commitment and contingencies

The Company has been named as a defendant in a \$97 lawsuit related to a low-ranking employee dismissal. The Company believes this lawsuit has no merit whatsoever and that its outcome would have no material effect on the Company's operations or financial condition.

17. Subsequent event

The Company has been named as a defendant in a lawsuit for \$174 plus interest of 6% per annum requesting a refund of monies paid for services rendered related to a low-speed Electric Vehicle demonstration program. The Company believes this lawsuit has no merit whatsoever and that its outcome would have no material effect on the Company's operations or financial condition.
