**Electrovaya Wins *LAPTOP* Magazine's
Editors' Choice Award for Best Overall Tablet PC**

***LAPTOP Magazine awards 4 out of 5 stars to
Electrovaya's innovative SC 3100 Scribbler Tablet PC***

Toronto, Ontario – May 25, 2006

Electrovaya Inc. (TSX: EFL), a world leader in the field of portable power solutions, was awarded *LAPTOP Magazine's* Editors' Choice Award for its SC 3100 Scribbler Tablet PC. The product review is featured in the June issue, currently on sale. The review highlights Electrovaya's Scribbler as the ultimate portable computing solution. Special attention was paid to the "...superb screen, rock-solid feel, and very good all around performance," as noted by *LAPTOP*.

LAPTOP ran a number of performance tests to determine the quality of the unit's processing and graphics capabilities. "...In terms of real-world performance this slate proves that the bad old days of sluggish tablet performance are long gone."

"The SC 3100 is the latest in the family of world-class mobile products we bring to market," said Dr. Sankar DasGupta, CEO of Electrovaya. "The SC 3100's pen computing capabilities eliminate the time spent inputting data, plus with a 75 Wh battery runtime, sales and medical professionals can enjoy a full day of worry-free mobility. We are excited to see *LAPTOP Magazine* recognize the innovation and benefits this product can deliver to their readers."

Based on the Scribbler's unique features and performance, *LAPTOP* went on to say, "...the biometric security sensor is among the easiest we have used. Rather than a swipe, you simply press your finger on the pad for very accurate readings. We trained the hardware with our print quickly, and it worked beautifully, with no false negatives locking us out of the system."

LAPTOP rated Electrovaya best overall, stating "...with long battery life and a highly usable design, the SC 3100 is one of the very best slates you can buy."
